

## Trauma/Acute Care Surgeon

Baystate Health seeks a talented and compassionate BC/BE Trauma/Acute Care Surgeon to join the Division of Trauma, Acute Care Surgery and Surgical Critical Care at Baystate Medical Center, in Springfield, Massachusetts. Baystate Medical Center is the only tertiary care facility and the only American College of Surgeons Committee on Trauma verified Level 1 adult and Level II pediatric trauma center in Western Massachusetts, and provides the highest level of trauma care available to patients of all ages.

Baystate Medical Center is the regional referral center for trauma, acute care surgery and surgical critical care for all of the regional community hospitals in Massachusetts, northern Connecticut, southern Vermont and southern New Hampshire. Annually, the trauma services responds to approximately 2,200 trauma activations at Baystate.

This opportunity features:

- A well-known and established group of 7 Trauma/Acute Care Surgeons
- An integrated Department of Surgery delivering regional care supporting 5 hospitals
- Baystate Medical Center is also home to one of only 39 American College of Surgeons accredited Level 1 Comprehensive Education Institutes in the world

Applicants will be expected to display outstanding emotional intelligence, demonstrate strong leadership abilities, be dedicated to education, working with and teaching the resident staff, have a strong interest in clinical research, and be able to work effectively across reporting lines.

Baystate Medical Center achieved elite distinction as one of 34 “High Performing” hospitals in America from US News & World Report in 2015. US News analyzed 5,000 hospitals to find the best in the nation. This rating means we excel in treating patients for hip & knee replacement, heart bypass surgery, congestive heart failure and chronic obstructive pulmonary disease (COPD).

*Are you ready  
to achieve a higher state of caring?*
