

Trauma/Acute Care Surgeon

Location: Chicago, Illinois

Posted Date: 11/2022

Expires: 05/2023

Job Description:

The candidate will join a team of 21 partners in the multispecialty GI/General Surgery Division, specifically with 8 surgeons dedicated to acute care/trauma services. The division is also comprised of fellowship trained surgeons in colorectal, minimally invasive, bariatric, and hepatobiliary subspecialties. Responsibilities include coverage for our Level 1 Trauma Center at Evanston Hospital in Cook County, Level II Trauma coverage at Highland Park Hospital, Glenbrook Hospital and ICU coverage for our surgical patients. The division faculty oversees Residency and Fellowship Programs through the University of Chicago Pritzker School of Medicine. Teaching opportunities, academic appointment, and research opportunities are available for interested and qualified candidates. NorthShore University HealthSystem (NorthShore), the principal academic affiliate of the University of Chicago Pritzker School of Medicine, seeks an outstanding Trauma/Acute Surgeon to join the Department of Surgery. NorthShore is a comprehensive, fully-integrated healthcare delivery system that includes six hospitals – Evanston Hospital, Glenbrook Hospital, Highland Park Hospital, Skokie Hospital, Swedish Hospital, and Northwest Community Hospital. Chicago is one of the top cities in the world and has amazing opportunities for year round enjoyment with highly ranked schools and universities, cultural activities, professional sports, and restaurants. The city and its northern suburbs are the perfect place to live and raise a family.
